

How to Get TEKVOX Tools

TekManager

What It's For

TekManager is the management software used to configure, control, and monitor TekMonitors—TEKVOX's networked controllers.

Where To Find It

TekManager can be [downloaded from the TEKVOX website](#).

From the homepage, hover over “**Resources**” at the top of the page, then select “**Downloads**”.

Find “**TekManager Management Software**” in the list and click on the green download symbol to the right.

TekTouch Configuration Tool

What It's For

The TekTouch Config tool is used to create, modify, and load control schemes for the TekTouchPad 3.5” color touchscreen.

Where To Find It

The TekTouch Config tool can be [downloaded from the TEKVOX website](#).

From the homepage, hover over “**Resources**” at the top of the page, then click “**Downloads**”.

Find “**TekTouchPad Configuration Software**” in the list and click on the green download symbol to the right.

TekDeviceEditor

What It's For

TekDeviceEditor is used to create drivers—lists of serial commands that controllers use to communicate with devices—to be used by TekMonitors in a Drop-In A/V® solution.

Where To Find It

TekDeviceEditor can be obtained upon request via email at support@tekvox.com.
